SUMMARY

Full Stack Developer with a background in telecommunications, electronics, and systems analysis and development. I have solid programming experience, working on both front-end and back-end, with proficiency in various languages and frameworks. I am self-taught, with strong learning ability, communication skills, organization, and a results-oriented mindset. I am versatile in working with multidisciplinary teams and delivering complete solutions, from the interface to the database.

EXPERIENCE

Apprentice – Hardware Maintenance / Customer Support

Intelbras - February 2022 - February 2023

- Analysis, maintenance, and troubleshooting of hardware components, as well as occasional customer support.

Junior Full Stack Developer

Hugen Topographic Equipment - June 2024 - Present

- Development of applications, software for radio systems, topographic equipment, and web pages.
- Integrated geolocation APIs with internal systems, improving the accuracy of data collection and analysis in equipment rental and sales projects.
